

We need you.

IT Program Manager (m/f/x)

Vienna

Full-time
employee

Professional/Experienced

60.000-85.000

4,2

Apply

Your tasks:

- You define project scope, schedules, and resource plans using Jira/Confluence.
- You lead daily coordination, track progress, and manage risks, issues, and change requests.
- You monitor budgets, forecast Azure subscription spend and report variances to stakeholders.
- You facilitate communication through reports, dashboards, and steering committee meetings.
- You embed governance best practices (PRINCE2/Agile), quality controls, and compliance checkpoints (GDPR, ISO 27001).
- You improve PMO processes, tools, and templates, driving automation with Power Automate, PowerShell, or Python.
- You mentor junior team members and foster a culture of transparency and accountability.

Your skills:

- Proven experience managing IT projects in a cloud-centric environment (M365, Azure).
- Strong command of Jira/Confluence for project

tracking, risk management and documentation.

- Familiarity with security fundamentals (MFA, conditional access) and compliance frameworks relevant to kununu's SaaS organization.
- Excellent stakeholder engagement, communication and facilitation skills
- Ability to translate technical details into business impact.
- Comfortable scripting in PowerShell or Python for automation of project artefacts and reporting.
