Senior Frontend Engineer React

📍 Barcelona   ◓ Full-time employee   🚩 Professional/Experienced

💵 45 - 60 K   Ƙ 4,4

Your tasks:

- Lead and support our ongoing migration from Vue to React, ensuring a smooth transition and a scalable architecture.

- Develop and maintain new features within our monolithic environment, ensuring a seamless and performant frontend experience for users.

- Champion code quality, including unit testing (Jest) and end‑to‑end testing (Cypress), by mentoring colleagues and driving best practices.

- Collaborate with fellow engineers, product manager, UX designer, as well as Customer Support & Success team to enhance our onlyfy ATS—software designed to streamline the hiring process.

- Share knowledge and align with other frontend engineers on architecture, coding standards, and best practices.

- Thrive in an international, cross‑functional setting where English is our primary language (German is not required).

Your skills:

- Several years of hands-on experience with HTML,

CSS, and JavaScript, along with proven expertise in React and TypeScript.

- Familiarity or prior experience with Vue.js, or a willingness to pick it up as needed during our transition phase.
- Knowledge of Node.js, npm, and associated tooling for frontend dependency management.
- Proficiency in testing frameworks like Jest (unit tests) and Cypress (end⊠to⊠end tests).
- A focus on usability, accessibility, and responsive design, plus experience writing well⊠tested frontend code (e.g., unit tests).
- A collaborative mindset—comfortable sharing knowledge, receiving feedback, and working in agile, cross-functional teams.
- Excellent English communication skills (written and spoken).
