It's all about people. Let's design products they love.

Intern Internal IT (f/m/x)

Porto   Intern   Student/Intern

4,4

Your tasks:

- Give support to IT colleagues on first level issues as part of a the Core IT Security Services.
- Assist on technical solutions for hardware and software issues that may arise.
- Support on the setup and configuration of the laptops, devices, servers and network equipment.
- Contribute on documentation in IT.

Your skills:

- You're currently studying or graduating in IT topic or similar.
- You want to learn about networks and device setups.
- You enjoy the challenges that a growing company brings with it and you face them with a great focus on solutions and a hands-on mentality. You work very reliably, precisely, and independently.
- You enjoy exchanging ideas and helping your colleagues and communicating openly and confidently at all external and internal interfaces.
- Good English skills. Due to the international orientation of the team, good English skills are a prerequisite. If you furthermore also speak German

than you're the best fit.
